

Key safe instructions

- Find the safe number that matches the one you received from Lefier.
- Open the protective cover by pulling the top towards you to reveal the dials.
- To unlock the safe, line up the dials in the centre line to match the combination you received from Lefier.

- Press the release buttons located on the side of the safe (one on the right side and one on the left) at the same time to open it.
- Remove your keys and close the compartment door.
- Close the protective cover.
- You're all set and ready to go.
